- PRESIDENT’S LIST
 - PRESIDENT’S LIST
- GWA: 1.47 | Academic Year 2024– 2025

GWA: 1.45 | Academic Year 2023– 2024

PROJECTS

- IskoTracer (Capstone Project)**
Tech Stack: HTML, CSS, JavaScript, PHP, MySQL, Bootstrap, Python
 - Collaborated on a web-based alumni management and career networking system for a university campus with an integrated AI-powered chatbot.
 - Supported administrative reporting, alumni tracking, and system evaluation processes.
 - Collaborated with the team throughout the system design, testing, and documentation phases.
- Meet&Sync**
Tech Stack: HTML, CSS, JavaScript, PHP, Bootstrap
 - Designed and developed a collaborative web platform that supports community event management.
 - Developed user authentication features, including login and signup functionality, and collaborated with the team throughout the project lifecycle.
- ServeIT**
Tech Stack: HTML, CSS, JavaScript, PHP, Bootstrap
 - Collaborated in developing a digital services and community platform, focusing on front-end design and user experience
 - Developed the FAQ page using Object-Oriented Programming (OOP) principles
- Tetris**
Tech Stack: Python
 - Partnered with a teammate to design and implement a playable Tetris game using Python.

SEMINAR/S ATTENDED

- For Algorithm to Intelligence: Your Journey into Artificial Intelligence & Machine Learning**
December 2025, Polytechnic University of the Philippines – Sto. Tomas Campus

SKILLS

- **Technical Skills**
 - **Languages:** HTML, CSS, PHP, SQL, Python, JavaScript
 - **Databases:** MySQL
 - **Frameworks & Libraries:** Bootstrap
 - **Tools & Platforms:** Git, GitHub, Visual Studio Code, Eclipse, Jupyter Notebook
 - **E-commerce Tools:** Amazon Seller Central, Product Listing, Catalog Management
- **VA & Amazon Skills**
 - Product Hunting & Competitor Analysis
 - Inventory & Catalog Management
 - Order Processing
 - Strong Attention to Detail
 - Tracking
 - Time Management & Multitasking
 - Adaptable and Quick to Learn

• **Tools & Platforms Proficient In:**
